

Large Format Rectangle Range

Tilemax offers a large format range in 600x1200mm on indent basis. These are normal stock designs and colours in our regular 600x600mm sizes. You can be sure of the design and colour by checking our stock 600x600mm sizes.

As 600x1200mm is a more speciality size and often used for larger installation areas we offer this on special order so we can ensure the complete order is all one batch.

We also have priced at a very competitive rate considering the large format size. The prices offered are on the basis of special order and immediate delivery on arrival.

Time from order to delivery is 8-12 weeks. Please talk to the Tilemax team to arrange your order.
