

Large Format Square Range

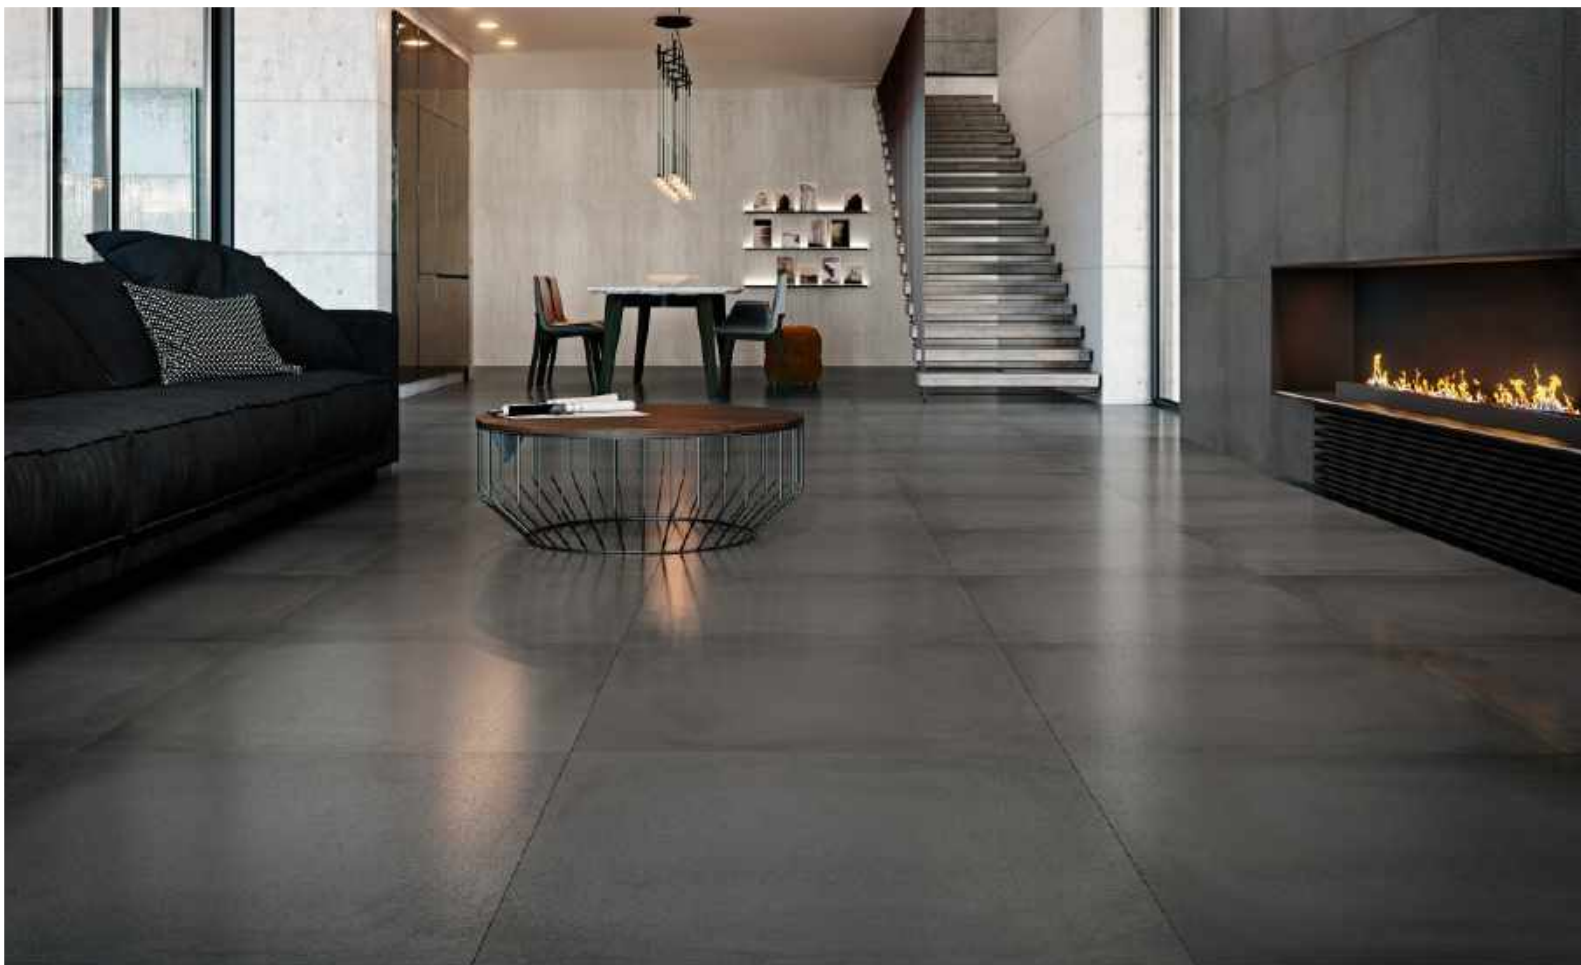

Tilemax offers a large format square range on indent basis. These are usually between 700mm square and 900mm Square.

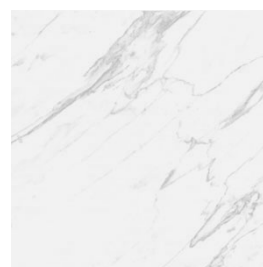

A 700mm-900mm Square is a more speciality size and often used for larger installation areas. We offer this on special order so we can ensure the complete order is all one batch.

We also have priced at a very competitive rate considering the large format size. The prices offered are on the basis of special order and immediate delivery on arrival.

Time from order to delivery is 8-12 weeks. Please talk to the Tilemax team to arrange your order.
